

**Born Talking**

Bristol Speech and  
Language Therapy  
Research Unit

The Born Talking seminar series (<http://borntalking.org/>) is a series of events that focus on using birth cohort data\* to address questions about typical and atypical speech, language and communication.

The fifth event in the series will take place in Bristol in collaboration with ALSPAC (Avon Longitudinal Study of Parents and Children) and Bristol Speech and Language Therapy Research Unit on **Monday 11<sup>th</sup> July 2016** at Canynge Hall, University of Bristol.

Presentations will include:

- Overview of ALSPAC – **Lynn Molloy, Chief Executive of ALSPAC**
- Current and recent research using ALSPAC speech and language data – **Dr Yvonne Wren, Professor Sue Roulstone and Dr Rosemarie Hayhow, Bristol Speech and Language Therapy Research Unit**
- ALSPAC G2! The next generation - **Mel Lewcock, COCO90s project manager**

The day will also include a data discovery session where attendees will be introduced to the dataset and gain an understanding of how it is organised. This will be followed by themed discussions for attendees with a specific interest in one of the following: Speech, Language, Communication, Stammering.

**We would be delighted if you would come and join in the discussion. For practitioners, PhD students and early career researchers we can offer travel bursaries of up to £75 each. If you would like to attend, please book via eventbrite at <https://www.eventbrite.co.uk/e/alspac-speech-and-language-data-seminar-11072016-tickets-25199950731> to book a place.** Please forward to others who might be interested in attending.
